

HD6 Indoor Ceiling and Indoor Pendant

www.honeywellvideo.com

HIGH SPEED PTZ DOME SYSTEM

The HD6 Indoor Ceiling and Indoor Pendant is a high speed dome tracking system designed for installation inside of an indoor drop or false ceiling or from an indoor ceiling. Each HD6 Indoor Ceiling and Indoor Pendant is available with gold and chrome lower domes to permit them to blend in with high style installations in casinos, hotels and high-end retail applications.

The HD6 features variable, manual speeds from 0.10° per second to 400° per second, tilt = 200° max. The maximum manual pan speed is programmable between 100°, 200° and 400° per second. During automatic operations (PreShots and VectorScans), the HD6 pan and tilt speeds are 400° per second unless otherwise programmed. Using precision stepper motors with belt drives, the operation of the system is extremely quiet and accurate. PreShot recall is within 0.10° accuracy, and PreShot recall speed is 0.5 second.

Market Opportunities

The HD6 Indoor Ceiling and Indoor Pendant mounts are perfect for indoor installations requiring high-quality video in a discreet camera profile. The HD6 indoor products are used around the world in education, retail, gaming and government installations.

Features

- Discreet 6.8" dome
- Backbox height is 4.97"
- High-Resolution Color, WDR and True Day/Night Camera for extreme low-light performance
- 35X WDR & TDN with Electronic Image Stabilization, 540 TVL
- Slow-speed shutter provides low-light color performance down to 0.001 lux
- 360° continuous pan rotation
- +2° to -90° tilt travel
- Variable pan speed 1/10° - 400° per second, proportional to zoom
- 3, 2-minute PTZ mimic tours
- Up to 98 programmable PreShots (pan, tilt, zoom) positions with 24-character on-screen labels
- PreShot recall speed is less than 1/2 second
- 10 programmable VectorScans (video guard tours)
- PreShot accuracy of 0.10°
- 16 sector IDs with 24-character on-screen displays
- 10 privacy zones
- Auto data polarization with Diamond Protocol
- 4 on-board alarm inputs
- Auto-pivot tracking
- English, French, German, Italian, Polish or Spanish languages for programming menus & OSD
- Honeywell Diamond, VCL, Maxpro mode and Pelco P&D protocols supported
- Auto Homing feature can also activate Tours and Vector Scans
- Unshielded Twisted Pair (UTP) video option available
- Patented "Flashback" technology recalls last stored position

SPECIFICATIONS

Operational	
Angular Travel	Horizontal: 360° continuous Tilt: 2° above horizontal to 90° down
Speed (Manual Mode)	Pan: variable from 0.10° to 400°/ sec. Tilt: variable from 0.10° to 200°/sec.
Speed to Preshot	400°/sec. (<0.5 sec.)
PreShot Accuracy	<0.10° accuracy
PreShots Per Dome	Pan/tilt/zoom = 98
Video Tours (VectorScans)	10 per dome
PreShots Per Tour	64
Still Shot™ Feature	PreShot freeze-frame of video during tour
Patterns (Learn mode)	3, 2-minute programmable PTZ tours
Sector Identification	16 independent sectors (zones)
Privacy Zones	10 programmable zones that blank the video when entered for privacy issues
Installation in Dome	Simple electrical quick disconnect and mechanical slide mount
Alarm Processing	4 on-board alarm inputs for dry contacts
Protocol Translation	Diamond, Maxpro, VCL and Pelco "P" & "D"
Auto-Homing	Activates Vectorscan tours and "Auto Learn" patterns. Dwell time is programmable up to 99 minutes
Flashback	Recalls the last PreShot position observed whether in manual, Vectorscan or Auto Learn (pattern) mode. PreShots can be toggled between last two
Digital Zoom label	Provides on-screen identification of digital zoom setting (ie 2x, 4x, 12x). User can select if On or Off.
24 VAC Line-Lock	Unit is 24 VAC line locked with 180° phase adjust
Freeze Frame of Video	When activated, the unit freezes the video signal for assessment or recording
Receiver/Driver	Digital – on board Communication: RS-485 Numeric rotary switch addressability Battery-backed memory
